## LOUVERED PANEL TROLLEYS

Linvar Louvered Panel Trolleys can provide substantially increased efficiency in the handling and transport of parts and materials from stockrooms to work areas. Linbins and other Linvar accessories are easily placed in any position on the louvered panels, which permits compact arrangements and allows more parts to be

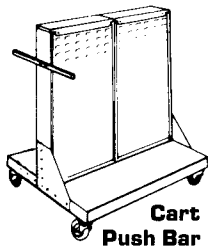

delivered in less time. Searching through stacks of containers to find the right one is eliminated, which saves time and reduces errors. Transporting and delivering parts in individual bins, rather than transferring them from container-to-container several times also saves time and decreases handling costs.

### HEAVY DUTY TROLLEYS

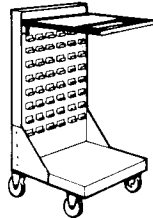

Heavy Duty Trolleys are Linvar Freestanding Racks fitted with casters. They are available in heights ranging from 3 feet to 7 feet, widths of 18 inches and 36 inches and both single-sided and double-sided types. Caster sets are available with different load capacities.

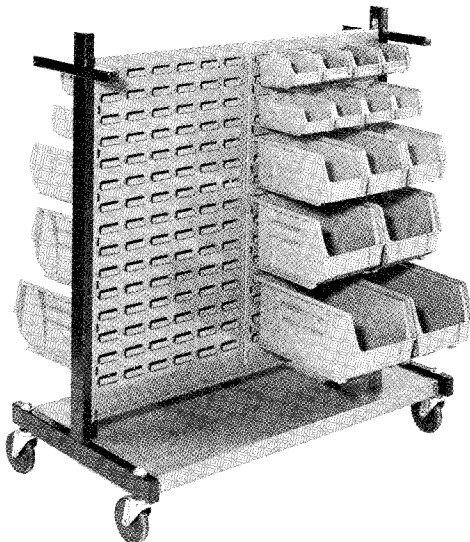

### Heavy Duty Trolley Accessories

**Cart Push Bar**

**Pick Push Tray**
